FOR SALE

FRESH OPPORTUNITY ON TAMBORINE MOUNTAIN

Joseph the Greengrocer, one of the mountain's most loved and well-supported businesses, is now available for sale — a thriving local produce store connecting the community with the growers and makers of the Scenic Rim.
For more than 16 years, Joseph the Greengrocer has been a cherished part of daily life on Tamborine Mountain — a vibrant, much-loved local business that celebrates fresh food, community connection and the incredible produce of the Scenic Rim.
Positioned in a prime location along bustling Main Street Tamborine Mountain, the store has become a destination for locals and visitors alike seeking the freshest fruit and vegetables, organic produce, free-range eggs and beautifully arranged flower bouquets. Each week the shelves are filled with carefully sourced goods from growers and makers across Tamborine Mountain and the Scenic Rim, reflecting the region's rich agricultural heritage.
Beyond the produce displays, Joseph the Greengrocer is also known for its thoughtfully curated pantry selection. Customers return time and again for locally produced spices and rubs, preserves and jams, artisan chocolates, nuts and fresh baked biscuits — a celebration of small producers and regional flavours.
Over the years, the business has built an exceptional reputation and a loyal customer base, generating strong and consistent revenue through both retail and wholesale trade. Surrounded by popular cafés, boutiques and specialty stores, its prominent Main Street position ensures constant foot traffic and visibility.
Now offered for sale, Joseph the Greengrocer presents a rare opportunity to step into one of the mountain's most established and well-supported businesses. Perfectly suited to someone who loves the Tamborine Mountain lifestyle, it offers the chance to live locally while operating a thriving enterprise at the heart of the community.
With minimal direct competition and strong foundations already in place, there is also clear potential for future growth. Expanding fresh food offerings or introducing juice and health-focused lines are just some of the possibilities for a new owner to explore.
The sale includes the business' fittings, equipment and delivery van, providing a turnkey opportunity for the next custodian to continue its success.
