TWO SEPARATE HOMES ON 5 ACRES WITH LARGE SHED AND POOL

Built well back from the road, hidden behind your own natural setting is an opportunity to own two totally separate homes that offer both privacy and space.

Dual living properties are perfect for the extended family or a business opportunity and this property presents plenty of options for the astute buyer.

The Main home overlooks the tropical pool/spa and entertaining area and would be great for a large or growing family or as an Air Bnb to bring in some extra income which is what the current owners are currently doing.

The second home has 3 bedrooms and is currently rented out but would also be perfect for elderly parents or children who are struggling to buy a home in the current property market. There is also plenty of room for a couple of horses and lets not forget the very sizeable shed to tinker around in.

With so many options to choose from and with Tamborine Mountain as your backdrop, this place is perfect for someone looking for a change of pace and lifestyle and or investment.
