The large family home and 12 metre work shed are positioned high on the flat area of the lot. The high location gives views across the acreage and out to the ranges with the distinctive Pomona Mountain in the distance. Attention to the water resources of the property have been paramount in its development. The home has an incredible rainwater supply storage of approx 140,000 litres. Rainwater storage and the ability to pump from the dams and water bore ensure continual water supply for the property all year round for family use and animal watering.

The home has been positioned so that the kitchen has magnificent views across the property to the mountain backdrop. The central kitchen is very well appointed with large amounts of storage and a dishwasher and allows easy interaction with the whole family in the adjacent dining and living area.
