FOR SALE

KING SIZED IN LOWER KING

Positioned on a huge elevated corner lot, this home is bright and airy with plenty of space for a growing family. The 1600sqm block offers a spacious yard and allows you to feel as though you are perched above all other homes.

This double brick home was built in 1990 when spacious living was a key design feature. The layout offers four bedrooms, two bathrooms and an open-plan living, dining and kitchen zone. There is also a games room, a study nook and a semi-enclosed patio for year-round entertaining.

Reverse cycle air-conditioning and a wood fire ensure complete comfort. Outside, terraced gardens and a veggie patch await the green thumb while a water tank and a reticulated system will keep the gardens looking lush.

There is dual access to the block, as well as parking for three cars under the carport and plenty of off-street parking for guests. Two garden sheds offer plenty of storage and there is a powered 9x7 shed with extra height for storing a caravan.
