6.37 Acres with 2 dwellings on an elevated block boasting 180 degree views, looking out towards the southern valley of Gordonvale. Situated only a 20 minute drive (approx) from Cairns. The property is surrounded by large cane farms.

A high set Queenslander, with potential to renovate, making this home a superb residence. The home offers living upstairs, including a living room, dining room, 2 bedrooms, kitchen and a newly renovated separate toilet and bathroom. Downstairs there is a second bathroom, separate toilet and laundry and large concrete open area for 2 cars and ample storage

There is a second dwelling on the property, a small 3-bedroom weatherboard workers cottage, raised on stumps approximately 500mm off the ground. With some cleaning and renovation work there is a rent potential of approximately \$300 per week.

The two dwellings are located at separate ends of the property with a vast space of land in between, idea for horse paddock, small crops or hobby farming. This property comes with some inclusions and a list of extra information is available on request.

The home has been in the family for over 60 years and family have moved out. There is a caretaker living on site, in the larger harvester shed. The home is ready for immediate purchase and to move in.

An access easement of approximately 6 metres runs along the eastern boundary of the neighbour for access to their cane farm.

Other features we love about this property

- Large harvester Shed approximately 25m x 10m with new roof, enclosed on 3 sides and
