

SOLD

CLASSY FROM THE FRONT TO BACK.

This home brings to the table a level of design and practicality not often seen in this price range. From the upmarket proper entrance hall with coffered ceilings that features a wall with picture nook at its end so you cannot see into the living area's behind, to the Cathedral ceilings featured in the kitchen living space, this home is full of features that just make it special.

The master suite is huge with double doors off the entrance hall, a large walk in robe and generous en suite with double shower and separate toilet. There is room in here for a lounge to make this a true bed sit.

The family or guests are not forgotten either with a further 3 bedrooms, a theatre room and an office as large as the bedrooms. AI fresco is large and is off the main living space.

Side access provides extra outside room for the boat or caravan and the gardens are reticulated and easy care.

Just up the road is the "Lakeside Park" which is ideal for any larger gatherings, walking the dog, throwing the Frisbee around or flying a kite.

Words can't really do this home justice with light flooding in form its oversized North facing windows, and really taking the time out to visit is the best way to see what is on offer here.
