UNIQUE MOUNTAIN CHALET ON A USUABLE 1011M2 BLOCK

This 2 storey home is situated on a usable 1011m2 block and is both unique in both style and design. The home has been positioned perfectly to take in the beautiful summer breezes and natural light, yet assuring complete privacy from surrounding properties. Rooms flow onto decks seamlessly, offering plenty of entertaining areas to just sit back and enjoy the natural surroundings and everything your property has to offer.

The budding chef will love the Kitchen which opens into the dining and flows directly through the living area and back around through the north facing outdoor entertaining area.

The Upstairs Parents retreat is inviting and private. There you can relax under the stars and enjoy the glimpses of the Coast at night on your own personal deck or just relax in the adjoining living space. This area is quite spacious and extremely private.

The yard is completely usable and has many different garden pockets throughout with pathways meandering from one space to another. It would be a perfect place for the kids to explore and play or grow their own vegies. The lock up storage area under house has plenty of ceiling height so could be turned into anything you want from a man cave, extra living areas or a shed space.
