BYLUND WAY PEARL

Bylund Way is a cul de sac that is full of high-class homes, is very quiet and just a nice street in which to settle down. This block of 2,123 square metres has the added bonus of having a larger than normal frontage which gives you more options when allowing for that shed and your dream home build.

Fully serviced and ready to go, it is the second last block in this delightful street and will certainly be that missing link in someone's next upward step on the property ladder.

Remember, when building it is important to take note of the homes around you because they can be instrumental in adding value to your home if they lift the demeaner of the whole area. For further information or to secure this outstanding opportunity call Jeremy Stevenson on 0427 183 688 or Lorraine Stevenson on 0417 183 688
