

**SOLD**

## LIVING OFF THE LAND! WITH LOTS OF FRUIT TREES!

Now here is a well set out property that was once a thriving garden of Eden! There is an incomplete dwelling that can be Council approved once the walls are lined and electrical is completed, set in amongst a hundred bananas, Plum Trees, apple trees, Mulberries, and 50 odd other varieties of fruit trees and exotics.

There are shade houses and chook pens under a HUGE "Icecream" tree, and lots of irrigation set up around it all... The dam is set in next to the seasonal creek that runs through the property and there are paddocks where a dairy cow once roamed.

With an autonomous Aquaponics/Hydroponics system in place, you can grow anything you want. This property is in need of TLC, but when that is done you will be in paradise!
