

**SOLD**

## BEACHFRONT VILLA!

Situated at the northern end of Tangalooma Resort, is where you will find this recently renovated and air conditioned villa. Being the second last villa in the resort, you have immediate access to the carpark and away from the central hub and noise.

This villa presents beautifully after a recent repaint and having the decks repaired. Id The main area of the resort, being the bars, restaurants and activity centre is a short 750 metre walk. You can either stroll along the white sandy beach or walk along the path ways that meander through the gardens and past the heated pool.

The inside living area is separated from the kitchen / dining area steps, which gives a nice feeling of separation and also offers a large built in owners cupboard under the stairs.

The downstairs also offers a full bathroom with a shower.

Upstairs offers two bedrooms, the master has a private balcony over looking the water. There is also a set of bunks built into the upper landing.
