MASTER PIECE WITH BREATHTAKING WATER VIEWS

Sitting high on the Mira Mar escarpment is this contemporary master piece and is the stuff of dreams.

Your front balcony seems like the door way to the rest of the world as you sit gazing out over history laden King George Sound with its sentinels Michaelmas and Breaksea Islands further on.

Inside the class of this home is on full display, a dream kitchen and living area that is the absolute hub of the home and makes that statement that you have arrived. A stunning gourmet kitchen featuring integrated fridge, a dishwasher, stone bench tops plus the adjacent dining space will provide an ambience around your dinner parties like no others and will make sure you are always part of the action even when creating in your happy space!

There is the obligatory second living area or theatre room, a down stairs office with reverse cycle air conditioning and room for three cars. All three bedrooms have built in robes with a master suite that is really special providing an en-suite with all the trimmings.

However, some homes are best suited to being seen in person as words and pictures don't portray them in their true light and this is certainly one of them.
