NEW RELEASE - BEACHSIDE LAND

Amazing lifestyle homesite!

866m2, town services, and titled ready to build on.

Strong construction covenant to protect the lovely feel of the estate, and also your investment.

Build when it suits you, no restriction on construction commencing.

"On the Beach" is a well established estate and you can see how the developers initial vision has led to a beautiful location with tree lined streets and a variety of modern homes, parks and open space.

41 Sandcastles Cct (Lot 82) has the enviable position right up on the nature reserve that fronts the gorgeous white sandy beaches. Imagine your dream home here, looking out to the parkland with cool breezes and ocean glimpses.

This is a rare find on the Queensland coast now, there are only a handful in this estate, as the developer has held them in reserve for over 15 years.

If you really want something special, the adjacent block #43 (Lot 84) is also available, you could purchase both blocks, and subject to council approval you would have 1920m2 that would be one of the best homesites anywhere on the coast! That would be amazing value when you compare with the asking price on urban capital city house blocks.

Burrum Heads has local shopping, tavern, fuel, bait, butcher and bakery / cafe - there's not much more you need if you are seeking an escape from the world.

Except maybe a boat ramp, and less than 10 minutes drive away is a modern, all weather ramp with loads of parking and facilities. So you can launch into the Isis River and head upstram for estuary fishing and cruising, or out toward Hervey Bay and Fraser Island, and North to Woodgate.

Surrounded by National Park, Burrum Heads is still a hidden gem, so make your claim now before the best land is gone.
