## CAPTAINVATING!

The Captains Cabin provides the essence of what many childhood memories of a beach holiday were made of. The eclectic charm of this classic beach home blends perfectly with its beachfront and riverside location. The village of Woolli will take you back in time and have you begging for more with a back drop of the Woolli Woolli River, National and Marine parks and views of the Pacific Ocean and Solitary Islands. The cabin is filled with surprises and provides generous accommodation fit for a family. An external laundry and separate lock up garage adds to the accessibility of the corner block. The underneath offers secure storage for a boat, car or loads of fun stuff. Spending days atop of the sand dune whale watching or keeping an eye over the kids will only be matched by spectacular sunrises, sunsets and stargazing. Don't get me started about the fishing!
