NOW AVAILABLE!!

This is a legacy property. Truly rare earth and a once in a lifetime purchasing opportunity. One to secure now and hand down through generations.

One of the most glorious landholdings in the entire shire of Denmark, this is the type of property that is sooo tightly held and just never ever turns over. True once in a lifetime real estate!

Just beyond the end of the main tourist drive through the gorgeous hills, valleys and vineyards that Denmark is synonymous with is this exceedingly private and tranquil escape.

The anticipation is palpable as you approach along the tree lined entrance way and over the timber bridge across the water course.

With around a kilometre of river frontage which includes deep pools and swimming holes, rapids and waterfalls and abundant Marron and Black Bream fishing, the most remarkable of lives awaits you here.

Around 136 Acres, with a central high point and beautiful gradual north facing slopes running down to the waters edge.

About a third pasture, which is fenced and currently running cattle. The other 2/3 is amazing
