Rainforest Meadows in conjunction with Mac Construtions is proud to present this luxury house and land package.

Featuring an abundance of living space, including a dedicated media room and a central living area, this design was created with families in mind.

The large, open-concept kitchen, living, and dining room is the focal point of the house. It flows outside to a covered alfresco area overlooking the beautiful pool, making it the perfect spot for the family to gather, unwind, or host guests.

The Whyambeel design provides everything a growing family might ever need, with four bedrooms, two baths, a media room, and spacious living areas.

Give yourself permission to visualise living the life you've always desired in the house you deserve and the location which provides you with outstanding views.

This design provides sustainable and comfortable living conditions all year round.
