Quite often the photos look great of a property but when you come to view you're left disappointed.... But not today!

1/11 Tainui Street is even better in person than in the pictures. The whole house has been renovated! Fully insulated, up, under and all the external walls! You'll be toasty warm this winter and save a fortune on heating bills! The open plan kitchen and living has been tastefully designed with the warm negative detail ply lined ceilings contrasting beautifully with the modern spacious kitchen. The living flows seamlessly to the sunny and private deck. With three bedrooms in total, even the smallest room fits a double bed while the remaining two bedrooms are light, airy and very spacious. The brand new bathroom is sleek and functional, with a separate laundry also boasting a full make over. A full fenced section with plenty of parking for all the cars and toys. No stone has been left unturned in this wonderful transformation.
