Be the first to own this fabulous new Milestone home in The Meadows. Built by the owners for their own home, a lot of thought care and detail has gone into the design and finishing. Sadly though, work has called them away further south and they won't be moving in. Their loss can be your gain!

Special features throughout the home offer just that wee bit extra compared to your standard "spec build" and make this house a real home. Extras like:

- + upgraded carpets with lovely thick underlay for comfort
- + upgraded kitchen including scullery and tristone benchtops for entertaining
- + gas cooking and gas hot water for convenience
- + double layer sun shade and blackout blinds in the living areas for a modern look
- + an extra heat pump in the master bedroom for a comfortable sleep
- + attic storage for the Christmas decorations and camping gear
