Offered to the market for the very first time, this Craftsman Home has been a treasured abode, for just one family. The same family that picked the land, and the house design to best suit their growth requirements. They wanted gorgeous natural light through the windows, cross ventilation to embrace the hill-breezes, and privacy to the alfresco entertainment area and pool. Mission accomplished!

This no-through street mainly welcomes, residents and friends. The position of the property is such, that the nature corridor at the rear features the odd wallaby peeking through the fence, and from the front of the home, sensational sunsets at the end of the day. The established gardens encapsulate the property.

Flood-free means little stairs. Here you can drive straight up to the carport, and walk straight in. Large feature windows, louvres, plantation shutters and glass sliding doors really do welcome the outside in. From the framed fire-pit view straight from the kitchen to the master suite overlooking the pool, this one is a sanctuary.

The floorplan certainly pays homage to the mortgage holder! The master suite is fit for a King (and King bed) with an ensuite and walk-in robe. The large open living space is alongside the master
