COME MEET THIS BASSENDEAN BEAUTY

Walking up to this beautiful home with a facade of lead-light windows, double carport and parking for four cars. A private hedged front yard with a huge jacaranda tree and colorful springtime bulbs.

Inside a welcoming double width hallway with wide polished jarrah floorboards entices you in further. High ceilings draw the eyes up to more leadlight glass inside the home.

On the right hand side of the hall are two large bedrooms one with air conditioning and stunning art deco ceiling roses and cornice. The master suite to the left of the hallway also features air conditioning, and includes a walk in robe and en suite featuring large white tile with black grout accent showing off the stunning free standing black soaker tub which has to be seen to be believed.

At the end of the hallway hides a study/possible fourth bedroom.

Toward the back of the house in a newer addition you'll find a large family kitchen with storage for all those kitchen gadgets and island bench that has a breakfast bar for those on the run.

The dining and lounge rooms are bright and breezy with a lot of natural sunlight through double glazed windows and doors which lead out to a good sized back yard with several citrus trees, an entertaining area and storage shed.

Beautiful period home just 10 minutes from the city by car or train, this is close to the airport and not within the flight path.
