BE THE FIRST TO CALL IT HOME

3  | 2  | 2 

It's not hard to see why this gorgeous showhome in the Meadows has become one of Milestone Homes' most popular designs. This is your opportunity to be the first to call it home.

Located just a street over from the local cafe and shops and backing on to a park, the location is perfect for family fun whether you've got kids, grandkids, or fur babies.

Beautifully designed for all day sun and entertaining, the spacious open living and dining opens out on both sides to extensive kwalla decking complete with an outdoor kitchen (optional) and fully fenced landscaped yard. The separate lounge can be shut off for movies and sport, and the kitchen features tri stone bench tops and a walk-in pantry.

A ducted heatpump provides heating and cooling throughout the home and the thermally broken argon filled double glazed windows add to the coziness. With the garage being insulated, carpeted and complete with attic storage, it makes it a really useful space for more than just housing the car too.
