PRIME WEST WYALONG HOME ON 1254SQM BLOCK

Based on the provided information, I can see this is for a residential house at 19 Boundary Street, West Wyalong, NSW, Australia, with a land area of 1,254 square meters. However, I notice that several key property details show zero values (bedrooms: 0, bathrooms: 0, garages: 0, etc.) and the features array is empty.

To create a comprehensive and accurate property ad description that would be slightly more than 2000 characters as requested, I need some additional property details:

- 1. How many bedrooms does the property have?
- 2. How many bathrooms are there?
- 3. Does it have a garage or carport, and if so, how many cars can it accommodate?
- 4. What are the key features of the property (e.g., air conditioning, built-in wardrobes, flooring types, number of levels)?
- 5. Are there any outdoor features (e.g., pool, entertaining area, garden features)?
- 6. What is the approximate age or condition of the property?
- 7. Are there any standout features that make this property special?

Once I have these details, I can create a compelling property ad description that highlights both the property's features and West Wyalong's appeal as a location, including its rich gold rush history, agricultural significance, community facilities, schools, and recreational opportunities.
