**WHERE LIFE FINDS ITS RHYTHM**

4  | 2  | 2 

There's something special about a home that just works for the rhythm of everyday life. Where mornings feel easy, afternoons stretch out onto the lawn, and evenings are spent gathered together in a space designed to bring everyone close.

At 225 Te Okuroa Drive, life centres around the open-plan kitchen, living and dining area – a light-filled space that feels both welcoming and functional. The kitchen is the true heart of the home, complete with a generous walk-in pantry that keeps everything tucked away, so the main space stays clean and uncluttered. Whether it's casual breakfasts at the island, family dinners around the table, or hosting friends on the weekend, this is a home made for connection.

Sliders open seamlessly to the backyard, creating that all-important indoor-outdoor flow Papamoa living is known for. There's room for kids to run, pets to play, and for you to relax in the sun with a coffee while the day unfolds. The layout has been thoughtfully designed to give everyone their own retreat. The master suite offers a haven, complete with a walk-in wardrobe and private ensuite. Three additional bedrooms provide flexibility for growing families, guests or a work-from-home setup. The family bathroom is cleverly configured with a separate toilet – making busy mornings that little bit smoother.
