This spacious five-bedroom, three-bathroom residence features solid double-brick and tile construction with wet plaster walls throughout — built to last. A versatile two-level layout is ideal for growing families.

Downstairs — Family Living & Entertaining

The open-plan kitchen and dining area forms the heart of the home. The kitchen features a gas cooktop, electric wall oven, built-in microwave, dishwasher, double bowl sink, wine fridge, double-door pantry, and generous bench space for meal preparation.

Three separate living areas provide exceptional flexibility — a living area adjoining the front dining space, a second living area overlooking the rear garden and entertaining area, and a multi-purpose media/activity room ideal for children, teenagers, or a home theatre, with direct access to the paved patio.

Three additional bedrooms, each with built-in robes, built-in study desk, and split-system air conditioning, are serviced by the family bathroom.

A laundry and third bathroom on the eastern side of the home provide convenient backyard access.

The home is NBN FTTP connected and fitted with a solar hot water system, keeping running costs down.

Upstairs — Parents' Retreat

A private retreat featuring a separate living area, master bedroom with double built-in robes, and a stylish modern bathroom with full-height tiling. The adjacent fifth bedroom is ideal as a nursery, guest room, or home office.
