YOUR FUTURE HOME ON CLIFTON

Spanning 750m² with a substantial 19.4m frontage, this block gives you the space and flexibility to design without compromise. Whether you're envisioning a spacious family residence, side access for a shed, or simply room for a pool and outdoor entertaining area, the proportions here make it possible.

The street has quickly transformed into a modern, well-presented enclave, surrounded by newly completed homes and proud homeowners. With schools, shopping, parks and everyday services only minutes away, the location delivers both immediate convenience and long-term appeal.

Land in this pocket is disappearing fast as the neighbourhood reaches completion. If you've been waiting for the right block in the right street, this is an opportunity worth acting on.
