POOL MAINTENANCE BUSINESS FOR SALE — BUNDABERG & WIDE BAY REGION

Own Your Time. Own Your Income. Own a Business That Works Around You.

Looking for genuine work-life balance without giving up a solid income? This established pool maintenance business offers something rare: flexibility built into the very structure of the business.

Currently operating on just 2 days per week (averaged over a 4-weekly roster), this business has plenty of room to grow — or stay exactly as lean as you want it. Prefer a "one week on, one week off" FIFO-style rhythm instead? The run sheets can easily be restructured to suit.

Why This Business Works

Growth here isn't chased — it comes to you. As new pools are built across the region, this business handles the end-of-build handover training for new owners, and regularly converts those relationships into ongoing maintenance clients. It's a natural, low-cost growth pipeline that's been feeding the business since day one.

The current owner has spent years in the pool industry and built this business with intention in 2023 (after selling down from a larger family operation) — deliberately keeping it lean because retirement, not full-time work, was always the plan. Now, after more than two years of solid trading, it's ready for its next owner.

THE NUMBERS:

Turnover: Approx. \$85,000 and growing
