STUNNING VIEWS, EASY LIVING

As soon as you step in the front door you get a feeling of WOW. The easy open plan living area flows onto the outside deck where you can relax and enjoy the views to Mount Warning. For Mum and Dad you can relax in style on the top deck away from the kids with peace and quiet. The chef is well looked after as well with a very functional kitchen however it will be hard to cook as you enjoy the views. A very large room upstairs can be used as the 4th bedroom or even a media room to have some extra style and a great place to sit and enjoy your favourite movie or music. Take the stairs and walk into the lower level which is something special and would impress the most discerning buyer. The master bedroom has a sliding door out to the back deck and capture the views to Mount Warning and ideal for relaxing of an evening or of a morning. The bathroom and en-suite have recently been refurbished and all the family will love. Outside you have a spa to rest those weary bones and the wrap around verandah is great for entertaining guests and the family. You can also access loads of storage space under the house to put the extra pieces you always have. Don't worry about the heat as the home is air conditioned and well protected by the trees to give privacy and keep everyone cool. Overall this home is a great start for the first home owner or investor alike and situated a short 950m to the golf course and 1.8km to the town centre. Sound like you? Give Luke or Robbie a call today to discuss you own private viewing.
